

# ATLAS VIRTUAL INSTRUMENT WORKSHOP

## SUNTEST® CPS+

In 90 min you will learn everything about instrument design, performance, and accessories. Understand installation, programming, operation, and maintenance. Join this **free training** and make the best out of your SUNTEST CPS+ every day.

**The SUNTEST CPS+ virtual workshop covers the following:**

- Design, controls, and safety of the SUNTEST
- Features and options
- Accessories for chilling and specimen wetting
- Programming and operation of the SUNTEST
- Maintenance and calibration
- Data acquisition

Don't miss this **free** hands-on how-to virtual workshop led by Atlas technical experts.
